

International Symposium on Future Seismic Disaster Reduction Program

Program

March 13(Tue), 2018

13:30 – 14:00	Registration	
14:00 – 14:10	Opening Address	<p>Kang, Kyung-In Professor, Korea university</p> <p>Kim, Sei-Yong CEO, Seoul Housing & Communities Corporation</p>
14:10 – 14:35	Lessons Learnt from the 2017 Pohang Earthquake Focusing on Damage of RC Buildings	<p>Kim, Sung-jig Professor, Keimyung University</p>
14:35 – 15:15	The Role of Education System for Disaster Prevention : Lessons from Graduate School of Societal Safety Sciences at Kansai University	<p>ABE, Seiji Professor, Kansai University</p>
15:15 – 15:40	Global Disaster Resilience: Safety Index of Post Risk Society	<p>Kim, Young-Geun Professor, Korea University</p>
15:40 – 15:55	Coffee Break	
15:55 – 16:35	Prequalified Seismic-Resistant Steel Moment Connections in the United States	<p>Michael D. Engelhardt Professor, University of Texas at Austin</p>
16:35 – 17:00	Development and Application of Aseismic Steel for Building	<p>Ryu, Hong-Sik Principal Researcher, POSCO</p>
17:00 – 17:25	Seismic retrofit of outdated apartment	<p>Jung, In-Yong Director, TechSquare</p>
17:25 – 18:00	Panel Discussion "Lessons from Seismic Disaster"	<p>Kim, Sung-jig ABE, Seiji Kim, Young-Geun Michael D. Engelhardt Ryu, Hong-Sik Jung, In-Yong</p>
